## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 1 is objected to because of the following informalities: '...a test program item in server test...' should be '...a test program item in a server test...'. Appropriate correction is required.
2. Claim 6 is objected to because of the following informalities: '...operate any of other remote clients for causing the remote client...' should be '...operate any other remote client for causing the remote client...'. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear as to the limitation 'a dialog box containing a plurality of option buttons of test program' is supposed to be disclosing about the invention.
5. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear as to the limitation 'one of the commands by clicking by operating the client' is supposed to be disclosing about the invention.

6. Claim 1 recites the limitation "the server". There is no previous recitation of 'server' prior to this limitation; therefore, there is insufficient antecedent basis for this limitation in the claim.

7. Claim 4 recites the limitation "the client names". There is no previous recitation of 'client names' prior to this limitation; therefore, there is insufficient antecedent basis for this limitation in the claim.
